

## **NFPA 1983 15 Minute Update**

Since our task group meeting as part of ITRS 2003, *NFPA 1983 Standard for Life Safety Rope and System Components* has undergone many of the suggested changes from that meeting and is now being prepared for the next round of public comment. This will be a brief update of the changes on the way and a how YOU can still be part of the final review prior to publishing the next edition.
